My dearest friends:

It was such as honor to see you at my book signing. Thanks very much for your continued support and for your great friendship.

I am in receipt of the photographs you sent to me. Thank you. Most of all, thank you for the information you sent to me regarding the Felter vs Norton case. I am greatly appalled and saddened that these struggles continue. Of course, I will do everything within my power to support your efforts. I have added this case as a part of all my introductory speech to corporations, community groups, and bookstores as I travel across these United States. Also, just let me know if I am needed to show up some place on your behalf. Further, I have directed all of my online friends to your Undeclareduties.net address. Now, please let me know if there are other things I may do to support this cause.

On another note, I was in Oklahoma (Broken Arrow) the weekend of July 9th. I just missed you in Oklahoma. I'm hoping that our path will cross again real soon. Until then, know that you, and all of your endeavors, are in my prayers.

Thanks for your friendship.

Sincerely,

Ezell Ware, Jr.
